NITINDEEP SINGH

Full Stack Developer | AI Product Developer

+91 7051419250 nitindeep65@gmail.com https://www.coffeeandeep.space/ https://www.linkedin.com/in/singhdeep1/

INDUSTRY EXPERIENCE

National Informatics Centre Services Inc. (NICSI) India , J&K
Software Applicant Support Engineer 03/2026 — Present

- Developed and maintained full-stack government web applications, handling frontend UI, backend APIs, and database integration.
- Managed development, staging, and production environments for government web portals.
- Automated deployment workflows using CI/CD pipelines for faster and reliable releases.
- Implemented secure authentication, API validation, and data protection mechanisms in web applications.

National Institute of Electronics and Information Technology India , I&K
Junior resource Person 01/2026 — 2/2026

- Monitored and resolved cybersecurity issues for a Government Department.
- Assisted in incident handling and security troubleshooting to reduce risks.
- Worked on development and maintenance of government websites.
- Followed secure web practices to improve website safety and stability

PUPRING New Jersey, USA (Remote)
Full Stack Developer 07/2025 — 11/2025

- Developed full-stack e-commerce features using Next.js and Node.js for Shopify-based stores.
- Built REST APIs for product, order, and payment flows, improving checkout completion rate.
- Automated data workflows (invoices, inventory, reports) with Python, reducing manual work

BISAG-N (Ministry of Electronics and Information Technology) New Delhi , India
Software Developer 11/2024 — 5/2025

Contributed to high-impact government projects, including AI-based platforms.

- Collaborated with teams to deliver secure and scalable features.
- Supported API integration, database handling, and production deployments.

PRODUCT / SYSTEM

AlgoFlow — Smart DSA Prep with AI + Sandbox **LINK:- https://vercel.com/nitindeep65s-projects/algoflow**

- Built a full-stack DSA learning platform using React and Express/Node.js.
- Deployed **frontend on** Vercel and **backend on** Render for production-ready hosting.

TASKLY (Asana/Kibana-inspired Task Management App) **LINK:- https://taskly-five-rho.vercel.app/**

- Added drag-and-drop task organization across multiple columns using @dnd-kit.
- Developed a reliable backend using PostgreSQL + Prisma ORM for efficient data storage and querying.

BookMind GPT (Retrieval-Augmented Generation (RAG) **LINK:- https://book-mind-gpt.vercel.app/**

- Al-powered document question answering
- Retrieval-Augmented Generation (RAG) based document understanding Developed a reliable backend using Vector DB for efficient data storage

SPECIALIZATION

Frontend Development :- React js • Next js • TypeScript • JavaScript (ES6+) • HTMLS • CSS3 • Tailwind CSS • Material UI • shadcn/ui • Responsive Design • Performance Optimization • SEO
Backend Development :- Node js • Express js • REST APIs • Authentication (JWT • OAuth • NextAuth • Clerk) • Server-Side Rendering • API Development • Microservices Basics
Databases & Data :- MongoDB • PostgreSQL • Prisma • Mongoose • Query Optimization • Indexing • Database Design • Vector Databases AI / LLM Development :- Retrieval Augmented Generation (RAG) • LangChain • Prompt Engineering • LLM Application Development • AI Integration • Google Gemini API • Semantic Search • Embeddings
Vector Databases & AI Infrastructure :- • ChromaDB • Document Embedding
Machine Learning & Data :-Python • Machine Learning Scripts • Data Processing • NLP Basics • Feature Engineering
DevOps **& Tools** :- Git • GitHub • CI/CD (GitHub Actions) • Docker (Basics) • Linux (Basics) • Deployment Pipelines • Environment Management
Additional Skills :-Data Structures & Algorithms • System Design Basics • Figma • Debugging • API Design • BillDesk

EDUCATION

SRM **Institute of Science and Technology**
2020 — 2024 | Delhi NCR, India
Bachelor's Degree in Computer Science | CGPA: 8.16
