SUMMARY

Full-Stack JavaScript Developer creating fast, scalable products with clean, high-impact code. Strong across APIs, UI engineering, authentication, and cloud deployment

EXPERIENCE

PUPRING

Full Stack Developer

New Jersey , USA (Remote)

08/2025 - 10/2025

Use high-quality materials and precise engraving

- Designing and integrating RESTful APIs for seamless frontend–backend communication.
- Managing backend logic, authentication, and database operations with Node.js, MongoDB, and Python scripts.
- Utilizing Python for automation, data handling, and integrating AI/ML-powered features.

BISAG-N Ministry of Electronics and Information Technology

Software Developer

New Delhi, Lodhi Road, India

11/2024 - 05/2025

Bhaskaracharya National Institute for Space Applications and Geo-informatics

- Actively implemented modern UI/UX strategies, API integrations, and performance optimizations to improve the efficiency and usability of public service platforms.
- Collaborated with cross-functional teams to integrate backend services using Node.js, SQL, and ensuring seamless application

PROJECTS

Newslly

<https://newslly-beryl.vercel.app/>

AI Newslly is a beautifully designed It provides users with the latest global and local news, summarized intelligently by an AI-powered summarizer for quick reading.

- Tech Stack: Next.js 15, MongoDB, Express.js, React, Node.js, Tailwind CSS, Shadcn UI, Clerk Authentication.
- Next.js Server Components: Optimized rendering and API performance.

AI -Summary maker

<https://cr-ai.vercel.app/>

AI Power is a next-generation conversational AI web application built with **React** and powered by the **Google Gemini API**

- **Gemini API Integration** for natural language understanding and AI-driven responses.
- **calable Backend (Node.js + MongoDB)** for data persistence and performance.

Open source Resume maker
